DUALSERIES

SALTER
The essence of fitness

ESSENCE

DUALSERIES

SALTER extends its **ESSENCE** line with the new **DUAL series**. This is a new series of strength machines specially designed for small spaces.

The **DUAL series** are multipurpose machines that allow you to exercise different muscle groups in the same machine, which implies a reduction of space and investment when equipping a fitness center.

In addition the **DUAL series** maintains the standard of quality and finishes of the **ESSENCE** line.

M-2019

SQUAT / STANDING CALF

- 3 mm reinforced steel chassis.
- 200° polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED, Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Adjustable shoulder rest.
- Non-slip rubber covered grips.
- Non-sliding footrest platform.
- Stainless steel plate guides.
- 10 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 150 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 140 x 131 x 163 cm.

M-2023 BICEPS / TRICEPS

▲ TRICEPS

BICEPS ►

- 3 mm reinforced steel chassis.
- 200^o polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED, Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Upholstery protective cover.
- Gas piston adjustable anatomic seat.
- Non-slip rubber covered grips.
- Stainless steel goniometer to adjust starting position / angle for biceps or triceps exercises.
- Stainless steel plate guides.
- 2,5 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 50 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 124 x 101 x 157 cm.

M-2039

ABDUCTOR / ADUCTOR / GLUTEUS

- 3 mm reinforced steel chassis
- 200^o polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED, Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Gas piston adjustable platform with ball bearing guide to ensure smooth and quiet movement.
- Non-slip rubber covered grips.
- Stainless steel goniometer to adjust starting position / angle of the exercise.
- Stainless steel plate guides.
- 2,5 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 50 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 116 x 92 x 157 cm.

M-2043 CHEST PRESS / SHOULDER PRESS

- 3 mm reinforced steel chassis.
- 200^o polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED, Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Adjustable anatomical back rest from 0 to 85^o.
- Hight adjustable handlebar with double non-slip rubber covered grips.
- Stainless steel goniometer to adjust starting position / angle for chest press or shoulder press.
- Stainless steel plate guides.
- 5 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 100 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 187 x 147 x 157 cm.

ESSENCE DUALSERIES

M-2048 ABDOMINAL / LUMBAR

▲ ABDOMINAL

LUMBAR ►

- 3 mm reinforced steel chassis.
- 200° polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED, Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Anatomical seat.
- Stainless steel goniometer to adjust starting position / angle for abdominal or lumbar exercises.
- Height adjustable lever arm.
- Non-slip rubber covered grips.
- Stainless steel plate guides.
- 5 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 75 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 110 x 100 x 157 cm.

M-2082 LEG EXTENSION / LEG CURL

LEG
◀ CURL

LEG
EXTENSION ▶

- 3 mm reinforced steel chassis.
- 200° polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED,
- Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Anatomical seat with upholstery protective cover.
- Adjustable backrest.
- Stainless steel goniometer to adjust the starting position / angle of the exercise and perform antagonistic exercises: leg extension and leg curl exercises.
- Adjustable leg support with linear bearings and gas piston that facilitates the adjustment maneuver and guarantees the execution of the exercises of leg extension and leg curl with the maximum precision.
- Non-slip rubber covered grips.
- Stainless steel plate guides.
- 5 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 75 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 101 x 103 x 157 cm.

ESSENCE DUALSERIES

M-2083 ABDUCTOR / ADDUCTOR

▲ ABDUCTOR

ADDUCTOR ►

- 3 mm reinforced steel chassis.
- 200^o polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED.
- Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Anatomical seat.
- Stainless steel goniometer to adjust starting position / angle for abductor or adductor exercises.
- Non-slip rubber covered grips.
- Stainless steel plate guides.
- 5 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 75 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 129 x 133 x 157 cm.

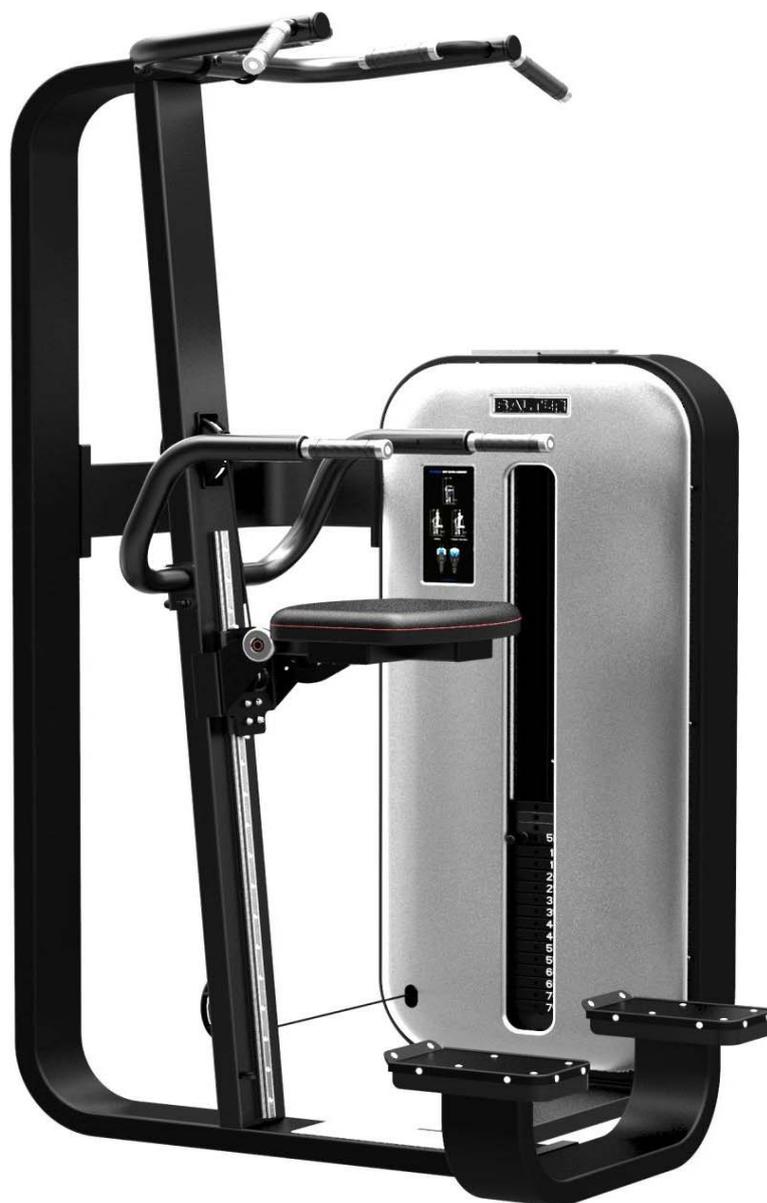

M-2085 PEC FLY / REAR DELTOID

- 3 mm reinforced steel chassis.
- 200° polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED,
- Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Stainless steel goniometer to adjust starting position / angle for pec fly or rear deltoid exercises..
- Gas piston adjustable anatomic seat.
- Articulated arms to adapt the movement according to the user's size.
- Non-slip rubber covered grips..
- Stainless steel plate guides.
- 5 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 75 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 99 x 160 x 207 cm.

ESSENCE DUALSERIES

M-2088 DIP / CHIN ASSIST

- 3 mm reinforced steel chassis.
- 200° polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High resistance power cable tensor built.
- Thermoformed weight-stack cover, aluminium effect.
- Tray for objects on the top.
- Antibacterial upholstery MRSA Standard, SANITIZED, Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Gas piston adjustable platform with ball bearing guide to ensure smooth and quiet movement.
- Assistant folding platform for individual training.
- Non-slip rubber covered grips.
- Stainless steel plate guides.
- 5 kg weight plates with low friction bushings.
- Load selector with magnetic security system.
- Adjustable levelers.
- Workload: 75 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 130 x 144 x 218 cm.

M-2093 HIGH PULLEY / LOW PULLEY

- 3 mm reinforced steel chassis.
- 200^o polyester powder coating, black matt finishing.
- Transmission pulleys with ball bearings.
- High and low pulley exits.
- Adjustable leg support.
- High resistance power cable tensor built.
- Antibacterial upholstery MRSA Standard, SANITIZED, Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Stainless steel plate guides.
- 5 kg weight plates with low friction bushings.
- Load selector with magnetic security system..
- Dorsal handlebar for high pulley and 2 individual handlebars for low pulley are included.
- Adjustable levelers.
- Workload: 100 kg.
- Descriptive pictogram of the exercise.
- QR code that provides link to instructional video.
- Dimensions: 198 x 69 x 222 cm
