

Welcome to a fusion of the Celtic Sweat Lodge with the Universe of Mindfulness  
7th-10th of October, on HETU Denmark

Do you feel an urge for a space where you can be held, a place where you are welcome just as you are, a place that calls for you just when you stand at the edge of no longer being able to cope with the struggles of your everyday life?

Are you ready to bravely dive into a journey toward a deep insight while embracing the joy of choosing more of you?

Do you feel a longing for a deeper truth and a need to reconnect with what's really important in your life, your true dreams?

This weekend is for those of you who are looking for more clarity, compassion, inner strength and creativity... for you who are ready to let go of what no longer serves you, in order to create space for what's truly yours. For three days we will share a journey as a circle, and into this circle we warmly invite you who have some previous experience from working in process through sweat lodge ceremonies, or other kind of self developing work.

Join us in a safe and sacred place, where you can reconnect deeper within, being held and supported by the circle, the fire, the water, and the stones.

In the Celtic tradition, the sweat lodge is a ceremony of death and rebirth. We allow ourselves to let go of the everyday world and peel off everything temporary to get deep into the presence of the moment.

In our daily lives, many of us spend most of our time fearing or avoiding the presence of death. In the Celtic lodge we walk consciously towards our death. We use the awareness we create during our journey, to awaken the realization of what is really important in our lives, and deepen our insight of what no longer serves us, all the things we need to let go and let die in the journey toward liberation.

We make the journey in the sweat lodge together as a circle, with the guidance of the sweat lodge leader Oldoz. For those who choose to dive deep into the journey, the ceremony can create awakening insights, healing and stillness, both emotionally, mentally, physically and spiritually.

Infused with the journey of the sweat lodge, we share teachings and increase our own power and potential, embraced by the work of Mindfulness. Guided by Rosario, we explore and grow deeper knowledge and awareness of effective tools and attitudes, to implement into our day to day life for greater joy and wellbeing. Letting us fully embody what the journey has revealed, using the strength of consistency.

Our facilitators will support and encourage you to challenge yourself in a safe way.

More detailed information about our practice will be received in your welcome letter after booking.

**Our facilitators:**

**Rosario Rojas and Oldoz Javidi**

Rosario is a physiotherapist, psychotherapist, as well as a body-and movement therapist. She has been in the self development field since 2002.

Educated Mindfulness instructors since 2010

She has facilitated Corporate Mindfulness since 2013 and mostly works with tech- and finance companies. Before all that she worked as a professional dancer for over 15 years and started to explore and learn how to cultivate an environment and mindset that are necessary for high performance teams and that enhance creativity. Tools and mindsets that have been refined over the years, emerging to her unique way to support individuals and groups.

Rosario was born in Venezuela and has been living in Stockholm, Sweden since early age.

Oldoz has been a student of Tim Jago since 2013, working with Celtic ceremonial tools and sweat lodges for a decade. She held her first lodge at Space of Love in 2015. Today she holds lodges in the traditional celtic ceremony of Taliesin's journey.

Nearly a year before the celtic sweat lodges called for her, and changed her way of living in a 360 dimensional way, life had also introduced her to Mindfulness, which by itself was a “point of no return” -experience. After graduating as a mindfulness instructor 2015, these two paths have been part of her daily life, no matter if she’s working as an actress, giving treatments as a body-therapist, engaging in conflict-management, working and traveling around the world with Clowns without Borders, or simply enjoying life with her husband and their little daughter. Oldoz was born in Iran, and has been living in Sweden since the age of six.
