

CASE: PUBLIC TENDER

ASSIGNMENT:

- Assisting legal and communication officers with submission of **public tender** in conformity with present language industry standards.
- Swift handling of **millions of words** per year to be translated and published for a mega construction project involving **critical approvals** by Danish, and German authorities.
- Securing the optimal use of translation tools like **Computer Aided Translations**, translation memories, and online dictionaries.
- Securing **compliance** with translation quality assurance standards (**ISO**).
- Pre-evaluating and appointing “best in class” language service **providers**.
- Advising on industry specific **pricing** schemes and **discounting** grids.

CLIENT BRIEF:

“Femern A/S” is responsible for planning and constructing the fixed link across Fehmarnbelt on behalf of the Danish state, as well as providing the data needed for the plan approval of the coast-to-coast link. The overall framework for the company's work is laid down by an agreement signed in 2008 between Denmark and Germany on plan approval, financing, construction, and operation of a fixed link across the Fehmarnbelt between Rødbyhavn and Puttgarden.
